Abstract

This presentation will provide a balanced look at various attitudes about privacy and trust relationships. It will cover the privacy related provisions of HIPAA and the ARRA HITECH Act as well as the specific requirements of disclosure accounting and breach notification. Next, the presentation will cover the technical emerging standards that enable information systems to manage the exchange of data based on granular patient consent preferences. Lastly, the presentation will cover recent recommendations that were made to the Office of the National Coordinator for Health IT that will shape future privacy legislation.

Biography

Since 2002, Kenneth Hartman has served as the Chief Security & Privacy Officer for Visonex, LLC a healthcare informatics company based in Green Bay, WI. In this capacity, Ken is responsible for all aspects of assuring the security and privacy of both the company's internal IT systems and the company's SaaS offerings. Prior to coming to Visonex, Ken worked as a corporate Electrical Systems Manager for Kraft Foods where he helped to secure the plant floor automation systems. Ken holds a BS Electrical Engineering from Michigan Technological University and holds the Certified Information Systems Security Professional (CISSP), and the Certified Professional in Healthcare Information Management Systems (CPHMIS) credentials. Recently, Ken became a mentor for the *SANS® +S™ Training Program for the CISSP® Certification Exam*. This course helps Madison area security professionals achieve their CISSP certifications. <http://www.linkedin.com/in/kennethghartman>.

Section Notes

We encourage our Section members to bring guests to our monthly meetings. We also ask that Section members to consider suggesting becoming a member of the IEEE to their colleagues. Our section is one of roughly a dozen who have celebrated 100 years of continued service to IEEE members. We are proud of our service to the Engineering community of Southern Wisconsin, and invite engineering professionals in our area to any and all of our events!

Our Section runs on the generosity of our members in the donation of their time, skills and efforts. We invite anyone in our Section to consider becoming a Section Officer in 2012. Please send your thoughts and considerations about possibly serving on the Board of Directors for our section to this year's chairman: David Marca, dmarca@openprocess.com. Thank you!

IEEE Membership Level Upgrades

Those interested in upgrading their IEEE membership level should send their resumes or other information showing five years of significant performance in an IEEE-designated field to Charles J Gervasi (cj@cgervasi.com). Madison Section Board will attempt to find Senior IEEE members knowledgeable in the applicant's area of practice who may be able to provide references. You are invited to attend the informal networking portion of the monthly Section meetings (starting at 11:30am) to meet the Section Board members and discuss intentions.

About the IEEE

The Institute of Electrical and Electronics Engineers or IEEE (read I-Triple-E) is an international non-profit, professional organization dedicated to advancing technology innovation and excellence for the betterment of humanity. IEEE and its members inspire a global community through IEEE's highly cited publications, conferences, technology standards, and professional and educational activities. It has the most members of any technical professional organization in the world, with more than 300,000 members in around 150 countries. The IEEE consists of 38 societies, organized around specialized technical fields, with more than 300 local organizations that hold regular meetings. For more information, please visit: www.ieee.org.

Reach over 700 IEEE members in South-Central Wisconsin with information on your products and services every month with an ad in this newsletter.

Our members have professional interests in computers, power engineering, signal processing, communications, industry applications and a number of other technical fields
